As an experienced frontend developer with over four years of experience in Vue.js, Nuxt.js, and Javascript, I have a solid understanding of web development principles and technologies. My expertise in Vue.js and Nuxt.js, allows me to develop efficient and scalable web applications. I am also proficient in HTML, CSS, Tailwind CSS, and JavaScript and can work collaboratively with cross-functional teams. I am a quick learner, always eager to expand my knowledge and stay up-to-date with the latest trends and technologies in the industry. My goal is to leverage my expertise and experience to contribute to a dynamic and innovative team.

Vue.js

Nuxt.js

Javascript

Tailwind css

Html

CSS

Bootstrap

Front end development

REST API

Firebase

Mysql

Laravel

Experience

Wastecontrol Aps

Aug 2022 to Present

Frontend developer Denmark, Remote

In my role at the company, I function as a Frontend Developer, overseeing the frontend development of several web-based projects. My portfolio includes work on more than four distinct projects, where my key responsibilities encompass creating and maintaining the frontend aspects of these web applications. My technical stack predominantly features Nuxt.js for the frontend framework, complemented by Bootstrap as the UI library, and I utilize CSS and SCSS for styling purposes. A significant part of my role involves integrating with REST APIs to facilitate efficient communication between the backend and frontend, ensuring a seamless user experience. By collaborating closely with both the backend and design teams, I am able to develop new features and address any emerging bugs promptly, thus maintaining client satisfaction and project success.

Trendmatch Aps

Aug 2022 to Jul 2023

Frontend Developer Denmark, Remote

In my role as a Frontend Developer at the company, my contributions were multifaceted, encompassing the development of key features, code reviews, and ensuring the seamless integration of technologies across our projects. My expertise is grounded in the Vue.js framework, with a strong emphasis on creating responsive and visually appealing user interfaces. Working closely with both design and backend teams, I was instrumental in driving project success, and adapting to various challenges and requirements. A significant part of my responsibility involved translating complex design specifications into precise, pixel-perfect implementations, demonstrating my commitment to excellence in user experience.

Aug 2021 to Aug 2022

Software Engineer Addis Abeba

ETTA solutions

Jul 2019 to Aug 2019

Intern developer Addis Abeba

This is the second internship I have done which was also a two-month summer internship at ETTA solutions. During my stay at the company, I participated in some projects the company was developing this was truly the best experience I had better than the first Internship I have gained knowledge on so many different technologies mainly in the web development area.

I have worked with Node.js, Angular, MongoDB, and Materialize CSS frameworks.

The projects I had a chance to participate in were Zmall app which is an online delivery system and Developed the front end for a new app which is an online transportation system.

Jul 2018 to Aug 2018

Exceed It solutions

Intern Developer Addis Abeba

During the two-month internship at the company, I have learned so much about the work environment, about team works, and how to work with senior developers with big projects. In the two months, I was allowed to work on my project, and also I was able to test their projects they were working on.
